

Commercial sheet for LEED & BREEAM points

LEED v4

Category	Sub-category	Credit	Supporting documentation
MR: Materials and Resources	MRc1: Building life-cycle impact reduction	Up to 3	◦ Third-party verified EPD (Environmental Product Declaration) in compliance with ISO 14025 and ISO 15804
	MRc2: Building product disclosure and optimization - Environmental Product Declarations	Up to 4-5	◦ Third-party verified EPD (Environmental Product Declaration) Type III in compliance with ISO 14025 and ISO 15804
	MRc2: Environmentally preferable products (HOMES, Multifamily Midrise)		◦ Recycled material third-party Verification
	MRc3: Building product disclosure and optimization - Sourcing of Raw Materials	Up to 2	◦ ESG according to GRI standards
	MRc3: Purchasing - facility maintenance and renovation		◦ Recycled material third-party Verification ◦ FSC Chain of Custody Certification (packaging) ◦ UL Greenguard Gold Certification
	MRc4: Building product disclosure and optimization - material ingredients	Up to 2	◦ Health Product Declaration (HPD) ◦ Declare Label ◦ REACH third party Verification (100 ppm)
	MRc5: Construction and demolition waste management (Option 1)	Up to 2	◦ Waste Self-Declaration
	MR: Design for flexibility	Up to 1	◦ Modular products Self-Declaration
IEQ: Indoor environmental quality	EQ: Interior lighting	Up to 2	◦ LRV Self-Declaration
	EQc2/c7: Low-emitting materials	Up to 3	◦ UL Greenguard Gold Certification
	EQc4: Indoor air quality assessment	Up to 2	◦ UL Greenguard Gold Certification
ID: Innovation	Innovation: Exemplary performance	Up to 1 point in all the previous categories	◦ Third-party verified EPD (Environmental Product Declaration) Type III in compliance with ISO 14025 and ISO 15804

→ NOTE: This document informs about the possible contribution of the LEED and BREEAM credits listed above. However, the final decision depends on GBCI (Green Business Certification Inc.) the specific project as there are many factors involved.
