

Connected. Wireless. Access.

WelcomeBob links intercoms, apps, and access devices through one secure **5G** network. No cables, less waste, and total control from anywhere. Smart and sustainable access for residentials.

📞 WelcomeBob Intercom

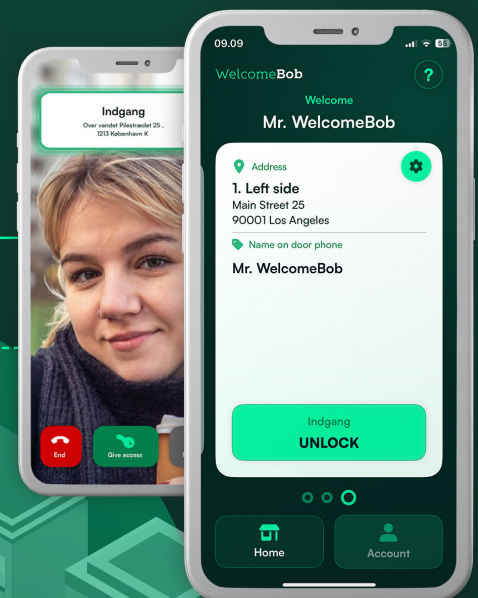

A digital doorphone that connects directly to residents' smart phones.

- Wireless setup - no cables to indoor units.
- Direct video call to user.
- Manage multiple intercoms in one app.

📱 WelcomeBob App

Your control center for every WelcomeBob device.

- Receive calls and open doors remotely.
- Connect several intercoms and DoorBobs.
- Secure 5G cloud connection - always online.

🏠 HomeBob

A sleek in-home station for simple, phone-free access.

- Receive and answer calls instantly.
- Open doors directly from the unit.
- Works seamlessly with the WelcomeBob network.

🚪 DoorBob

Turn your phone into a digital key.

- Unlock automatically via the app.
- Link multiple DoorBobs to one user.
- Keyless, wireless, and sustainable access.
